

Options for Purchasing Drawstring-style Backpacks for LWR School Kits

The selected backpacks below come within an acceptable range of LWR's required 17" X 14" dimensions for School Kit bags. These bags have been chosen from larger lists offered by the producers for size, fabric type, style and sturdiness. This list is not comprehensive but is intended to provide resources for those kit-makers looking for purchasing options for drawstring-style backpacks.

Most prices include one color printing (except those designated Blank) with print setup an additional charge; blank is highly preferred. You may be able to negotiate a lower cost for blank bags (usually 5¢ - 10¢/bag).
